REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The claim is allowable because the prior art fails to teach a gap between an outer circumferential side surface of the interior surface of the outer cutter and a rotating side surface of the inner cutter blades is different in circumferential positions of the outer cutter such that the gap on one side of the inner cutter is fixed and larger than the gap on an opposing side, as set forth in claim 1.

Philips Electronic N.V. (WO 95/29042) teaches a gap between an outer circumferential side surface of the interior surface of the outer cutter and a rotating side surface of the inner cutter blades is *similar* or different in circumferential position of the outer cutter because of the eccentric rod 42. However, Philips Electronic N.V. fails to teach the gap on one side of the inner cutter *fixed and larger* than the gap on an opposing side because the eccentric circular movement causes the gap to be not fixed and similar to the gap on an opposing side (see Fig. 8, cutting member 11).

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Omar Flores-Sánchez whose telephone number is 571-272-4507. The examiner can normally be reached on 8:00-5:00.
